Dear Dr. Wagner Brod Beskow,

PRESIDENT  
James Linn (11)  
University of Minnesota  
St. Paul, MN  
linnx002@umn.edu

On behalf of the ADSA<sup>®</sup> Board of Directors and the Editors of *Journal of Dairy Science*<sup>®</sup>, I would like to thank you for your service as a reviewer of manuscripts for the journal during 2010.

VICE PRESIDENT  
Bob Roberts (11)  
Pennsylvania State University  
University Park, PA  
rfr3@psu.edu

Careful review of manuscripts by peers is vital to the process of scientific research and publication. Without it, the caliber of the journal could not be maintained. The journal's high Impact Factor (2.463) and top ranking among agriculture, dairy, and animal science journals are a testament to the contributions reviewers make to *Journal of Dairy Science*<sup>®</sup>. Frequently, tightened budgets, added job responsibilities, lack of recognition, and other constraints make it increasingly difficult to devote time to peer review.

PAST PRESIDENT  
Phil Tong (11)

Having a high-quality journal that publishes papers in a professional and timely manner is a key element in the service to our members. We recognize that manuscripts seem to appear on your desk at the most inopportune times and yet you took the time needed to get the reviews completed.

TREASURER  
Alois F. Kertz (12)  
ANDHIL, LLC.

We sincerely appreciate this valuable contribution you have made to dairy science. Your efforts have helped to ensure that high standards of quality and scientific integrity continue, and the time you have so generously contributed is very much appreciated.
